Expenselt is the Only Expense App that Works Seamlessly with Concur

Since launching for Concur customers at the end of 2013, Expenselt has turned more than a quarter of a million receipt images into expense reports for a variety of innovative companies, both small and large. Because employees are capturing expenses on the go, companies get a closer to real-time view into spending.

<p>populating an electronic expense report with the expense data; and</p>	<div data-bbox="604 313 1188 789"> </div> <div data-bbox="1213 313 1875 789"> </div> <p>Source: https://www.concur.com/self-guided-demo-expense?cid=Global-SAP-FBPAGE-MarketingCampaign-us_organic-spr-4170225011#/capture</p>

Claim Language	Evidence of Infringement
<p>displaying the electronic expense report to the individual;</p> <p>Specification support: Click “scanning complete” once you have finished scanning all the receipts. You will find that all the information from the scanned receipts is automatically entered into the computer 2 (Step 16). Each receipt is entered as a separate transaction using preselected, or default categories. You have the flexibility to change the categories any time and reconcile. Now the software program in the computer 2 has organized all the information (Step 17). This new or updated file is ready for viewing on the screen (see the monitor 3 in FIG. 1) and/or for printing (see the printer 4 in the FIG. 1) (Step 18). [US Patent No. 10,049,410 at col. 4, lines 19 – 29]</p> <p>displaying the electronic expense report to the individual.</p>	<p>The extracted information is automatically populated into their relevant field in the SAP Concur application which is displayed on the display screen of the mobile device.</p> <p>If you don't have Expense Assistant on, <u>you can view the created expense in the expense library.</u> If you're on the web version or wanting to review and adjust itemizations, first move the expense to a report; otherwise, edits can be made from the expense library.</p> <p>Tap on an item to review the expense type, date, vendor, and location. You will be able to edit these fields if necessary. <u>Once the populated information is complete and accurate, you can move the expense to a report</u> if you haven't done so already.</p> <p>Source: https://www.concur.com/sites/default/files/rc-import-EndUser_ExpenseltinConcurApp_FAQ.pdf Page 4 of 9</p> <div data-bbox="665 761 1383 1331"> </div> <p>Source: https://www.zoho.com/books/expense-reporting/</p>

	<p>SAP Concur can scan various sized paper receipts, invoices, and bills.</p> <p><u>Expenselt will then create an expense entry – selecting the expense type, matching payment type, and even itemizing your complicated hotel bills</u> for you – and send it straight to Concur Expense. Expenselt uses a combination of technologies to create expenses accurately from receipt images. You also have the opportunity to review and make changes to expenses along the way.</p> <p>Source: https://www.concur.com/sites/default/files/rc-import-EndUser_ExpenseltinConcurApp_FAQ.pdf Page 2 of 9</p>  <p>Source: https://www.concur.com/self-guided-demo-expense?cid=Global-SAP-FBPAGE-MarketingCampaign-us_organic-spr-4170225011#/capture</p>
